EDUCATION

B.Tech - CSE(Data Science) 2022 – 2026 | C.G.P.A - 8.0
Vignan's Institute of Information Technology, Visakhapatnam

Senior Secondary 2020 – 2022 | 91.2%
Sri Chaitanya Junior College, Visakhapatnam

Secondary 2020 | 81%
Narayana Junior College, Visakhapatnam

PROJECTS

Neural Narrate - AI Powered Blog Generator | React JS, Node JS, Express JS, Mongo DB, Tailwind CSS

- Developed a full-stack web application that enables users to generate, manage, and publish blogs using AI. Integrated Google Gemini API for automated content generation, Quill.js for rich text editing, and ImageKit for optimized image uploads.
- Built with the MERN stack and secured with JWT authentication. Designed and implemented an admin dashboard to manage blogs, drafts, comments, and analytics. Deployed on Vercel with a responsive Tailwind CSS UI.

Swiggy Clone | React JS, Node JS, Express JS, Tailwind CSS

- Developed a MERN-stack Swiggy-inspired food delivery platform featuring user authentication (login/register), vendor dashboard, and a UI closely resembling the original Swiggy app. Implemented role-based access for users and vendors, with secure JWT authentication and protected routes for both dashboards.
- Built RESTful APIs with Express.js and Node.js for user registration, login, product management, and vendor operations. Integrated MongoDB for storing user data, product listings, and vendor information with proper schema relationships.

Resume Analyzer and Job Matcher | React JS, Express JS, Node JS, Tailwind CSS, Python

- Built a full-stack web application to analyze resumes and match them with suitable job descriptions. Extracted key skills from uploaded resumes and compared with job descriptions by using python NLTK toolkit to calculate match percentages and identify skill gaps.
- Suggested relevant job roles based on extracted keywords and candidate profile. Designed a clean, professional frontend with Tailwind CSS and custom components.

TECHNICAL SKILLS AND INTERESTS

- **Programming Languages:** C, C++, Python, Java, JavaScript, HTML, CSS
- **Web and Software Development:** React JS, Node JS, Express JS, Tailwind CSS, Git, Github, Postman API
- **Databases:** SQL, Mongo DB
- **CS Fundamentals:** DSA, DBMS, Operating Systems, Computer Networks, Object Oriented Programming
- **AI/ML & Data Science:** Machine Learning, Deep Learning(CNN)

ACHIEVEMENTS AND CERTIFICATIONS

Competitive Programming

- Solved 300+ problems on GeeksforGeeks [🔗](#) and Codechef [🔗](#) focusing on algorithms, dynamic programming and Greedy Algorithms
- Achieved Python 5 star, SQL 4 star and React JS 3 star in Hackerrank [🔗](#)

Business Analytics and Text Mining Modeling using Python - NPTEL | [Link](#) [🔗](#)

- Completed NPTEL-certified course covering foundational topics in Text Mining including preprocessing, statistics, and NLP

AI - ML - EduSkills | [Link](#) [🔗](#)

- Completed AI ML course covering fundamentals of Artificial Intelligence and Machine Learning.

Python Essentials 2 - Cisco | [Link](#) [🔗](#)

- Completed Python Course covering Python programming from Basic to Advanced

SQL for Data Science - edX | [Link](#) [🔗](#)

- Completed SQL course covering fundamental of SQL Database

Web Development - EduSkills | [Link](#) [🔗](#)

- Completed course covering basics of Web Development
